The course is facilitated through the Howard Hughes Medical Institute (HHMI), in collaboration with the University of Pittsburgh. Students will learn to analyze genomes by studying a completely novel bacteriophage. The use of bioinformatic tools will be used to perform comparative genomic analysis that will emphasize taxonomy, phylogeny, physiology, genetics and organic evolution. The section will meet once each week virtually on Zoom. All students taking BIOL110 are welcome to enroll.

This is a special research lab section of BIOL110, called SEA-PHAGES.

Have you ever considered how people with disabilities navigate the world? In this course, you will explore disability through a social lens, investigating the ethical, psychosocial, environmental, economic, and political challenges faced by people with disabilities across the lifespan. You will have opportunities to engage in critical thinking, personal reflection, and peer activities to explore personal and societal biases leading to a broader perspective of how the lived experience of people with disabilities can be affected.
