\_\_\_\_\_ **Safety Plan** on how your protocol can resume research safely.

The safety plan should describe how research could resume. Some items to include:

- Where research will take place;
- Safety precautions that will take place;
- Inclusion or exclusion criteria for individuals at high risk for COVID-19.
- What about companions with subjects?
- Will close interaction be required? If so, additional safety precautions will be required such as investigators wearing both a surgical mask and a face shield.
- Will participants be able to wear masks for duration of the study visit?
- List team members involved in the resumption of human subjects research.

\_\_\_\_\_ **COVID-19 Consent Addendum** to be kept on file.
