Courses marked with an asterisk () are prerequisite courses that require a C+ or better. For admission and progression in the nursing major, students must achieve and maintain a CGPA of 2.75, minimum grades of C+ in all designated courses for the nursing major, completion of all identified prerequisite courses listed as 1st, 2nd & 3rd semester courses, and departmental approval. Qualified applicants will be held accountable for meeting current requirements and for monitoring their academic progression toward the completion of the BSN degree requirements irrespective of the date of admission into the nursing program. Students are advised to review the nursing website (www.nyit.edu/nursing) for additional nursing policies and procedures prior to applying to the nursing program.

Repeat Course Policy: Identified Prerequisite Courses - Students may repeat only two (2) identified prerequisite courses in which they received a grade of C or below; these courses may be repeated only once. This requirement includes courses taken at other colleges. Students who are required to repeat an identified prerequisite course must achieve a grade of C+ or better in the repeated course. Students who fail to achieve this requirement are not admissible to the nursing program.

Repeat Course Policy: Nursing Courses (NURS prefix) - All nursing (NURS) courses require a C+ or higher. Students who receive less than a C+ in a nursing course (clinical or didactic) may repeat the course only once. Students may repeat only one (1) nursing course. Students who are required to repeat a nursing course must achieve a grade of B or better in the repeated course. A grade of B- or C+ is not acceptable as a grade for the repeated course and constitutes a course failure. Failure in more than one nursing course constitutes grounds for dismissal from the Nursing Program.

**Non-native English speakers take FCWR 111 instead of FCWR 101 and FCWR 161 instead of FCWR 151

***Seminar pre-requisites include: FCWR 151, FCIQ 101, FCSC 101, and FCSP 105.
