

Section 3: If You Have Already Created a VT for Students to Watch and/or Comment:

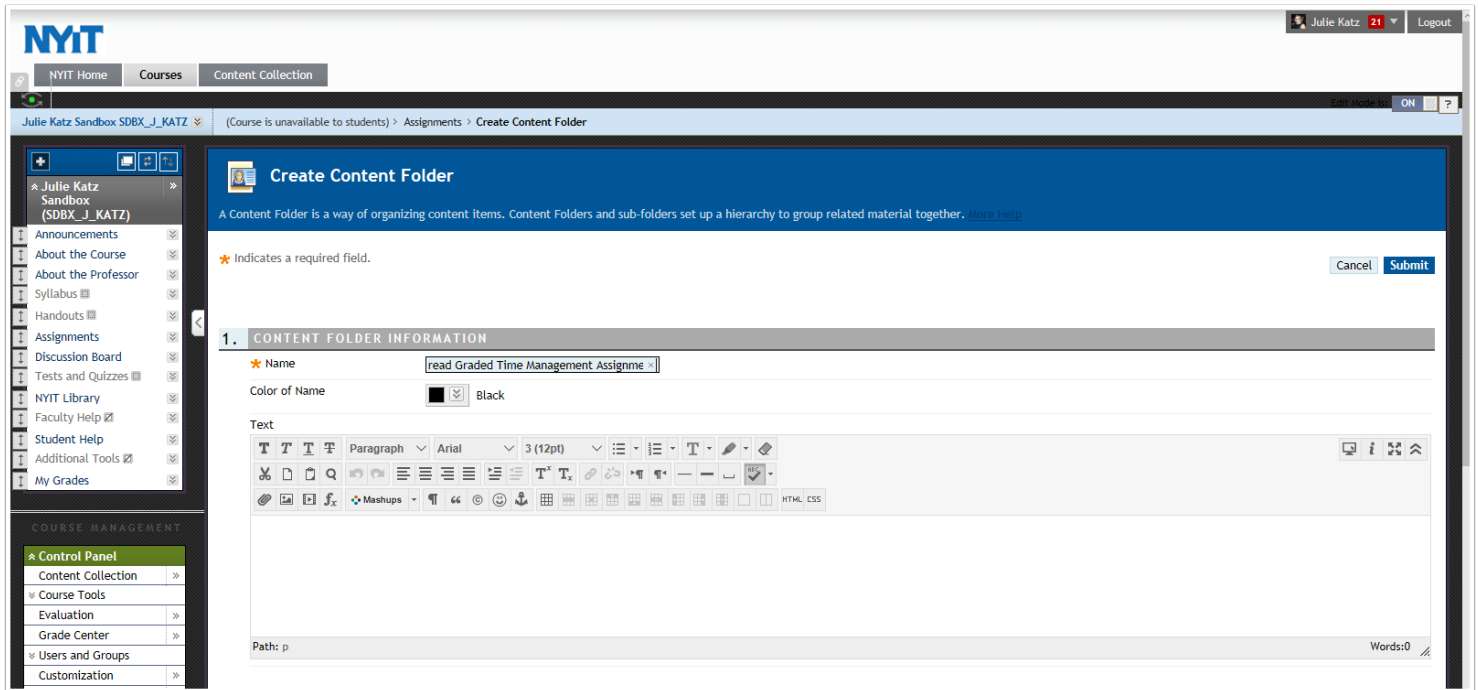

Students will see the VoiceThreads you have already created.

Direct students to the VoiceThread you want them to watch and comment on, as shown above..

You can also Create a New VoiceThread by clicking on "Add your own" by clicking on the link in the upper right corner.

Section 4: Assignments Screen: Creating an Assignment Folder for VoiceThread

Go to Build Content and select Content Folder

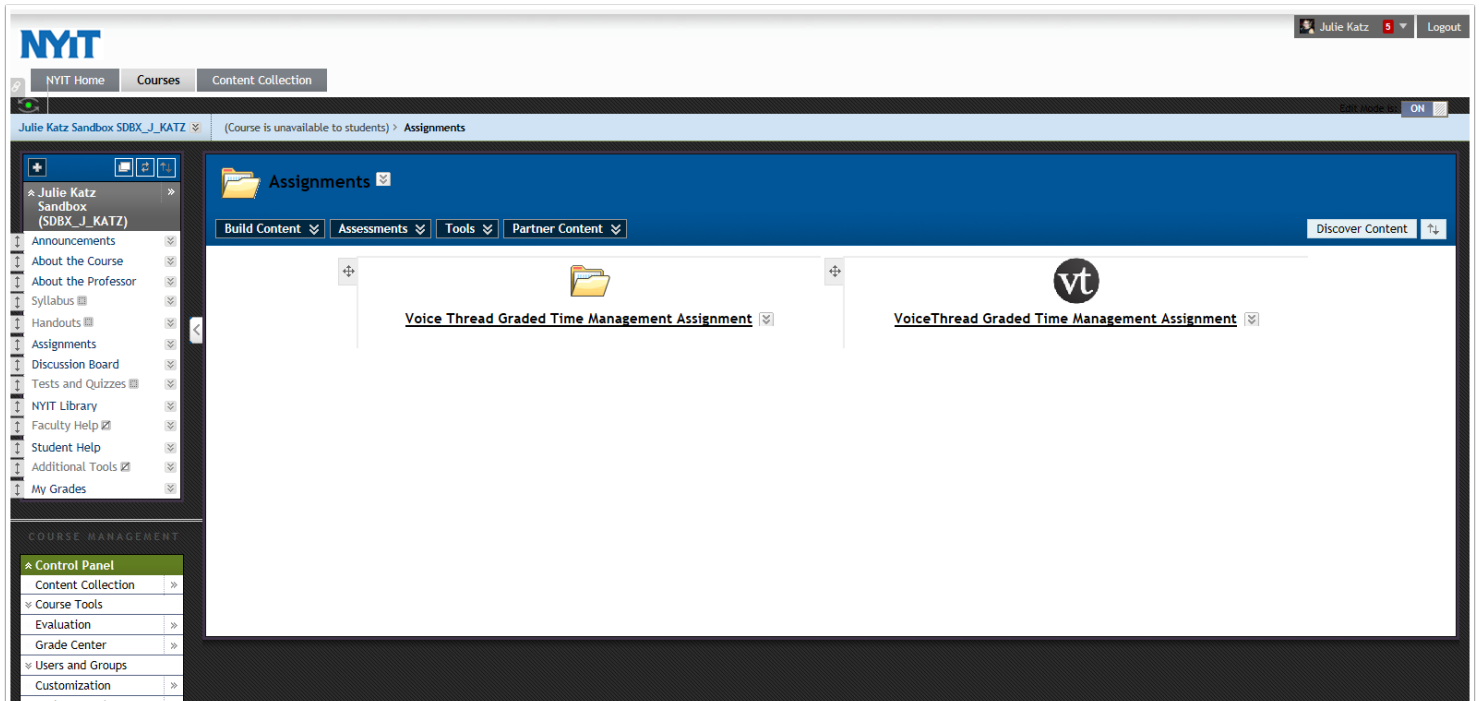

1. Name the Folder and optionally add a description so that students will know what the assignment is and what is expected of them.
2. Select the Standard Options. Be sure to Permit Users to View this Content and the desired options.
3. In section 3. at the bottom right of the page click Submit.

You will then see the folder you just created in the main assignment screen.

Now you will want to move your VT into the Assignment folder your just created.

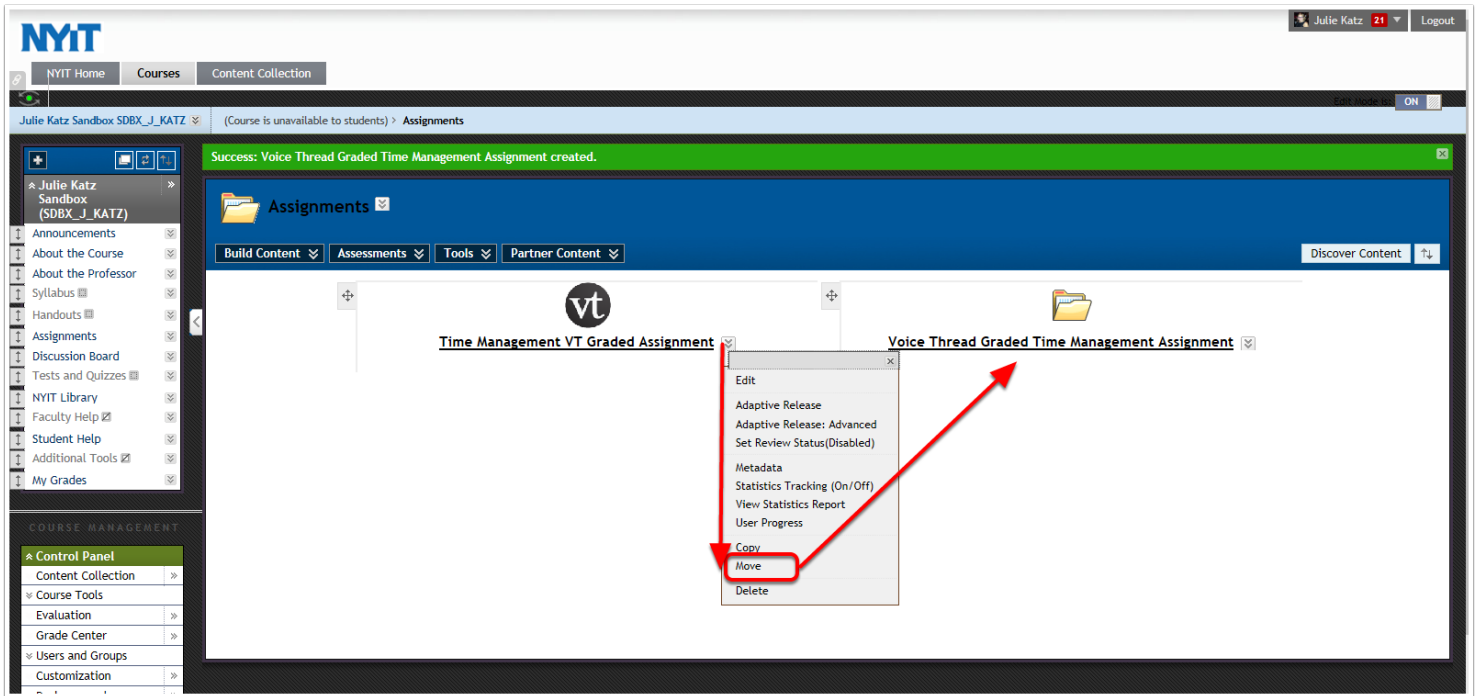

Add Your VT into Assignment Folder

Move the VT Link into the Assignment Folder

Click on the drop down menu next to the the VT link and select Move.

When the dialogue box opens, select Browse and move the link to the corresponding Assignment Folder.
