

Instructional Image

This is the same feature that you'd use to include an image in a poll title as it displays the image, poll title, and response options all the same time.

1. Go to **Visual Settings** on a multiple choice poll
2. Click on **Instructional View Settings**
3. **Upload an image** from your computer, a URL, or Flickr search

The screenshot displays the PollEv interface for a poll titled "What is your favorite color?". The poll question is "What is your favorite color?" and the instructions are "Respond at PollEv.com/ozhadko" and "Text OZHADKO to 37607 once to join, then A, B, or C". The poll options are Blue (A), Red (B), and White (C). The poll results show "Total Results: 2". The "Visual Settings" panel is open, showing the "Instructions View Settings" section. The "Instructional Image" field in the settings panel is selected, and the image of the flag is visible. Red circles 1-4 highlight key elements: 1. Edit icon, 2. Instructions View Settings section, 3. Selected instructional image in settings, 4. Instructional image on the poll.
