

# CONNECT TO NYIT WI-FI USING ANDROID

**STEP 1:** Tap on  and select **Connections** from the list of **Settings**.

**STEP 2:** Tap **Wi-Fi** next and select **NYIT Wi-Fi**. It will check the quality of your internet connection.

*Please note: All students, faculty & staff should use the NYIT Wi-Fi, NYIT-Guest should only be used for visitors for temporary Wi-Fi internet access.*

**STEP 3:** Exit to the **Home** Screen and tap on a **browser** . Go to **NYIT.edu** and follow the prompts to connect. You will be given 3 choices:

- **Students, Faculty & Staff** – If you have a New York Tech username and password.
- **Extended guest accounts** – If you have set up an account with Information Technology Services (ITS).
- **Gaming devices** – If you are registering your console.

You will then receive a message that your Android device is connecting to the network and a progress bar will launch indicating a successful registration.

For further assistance please contact Information Technology Services (ITS) at [servicecentral@nyit.edu](mailto:servicecentral@nyit.edu) or 516-686-1400.
