Call for Student Posters

Students are invited to present posters on their ongoing research and enter the poster competition at:

New York Institute of Technology

NYIT SIXTH ANNUAL CYBER SECURITY CONFERENCE

September 24, 2015 (8:30 a.m. to 6:00 p.m.)
1871 Broadway, New York City, NY, USA

NYIT’s Annual Cybersecurity Conference is a forum for discussing security and privacy aspects, focusing on research advances as well as applications. Student’s Research-in-Progress Posters (SRIPP) may draw upon a broad array of disciplines that span security for IT and networking, wireless communications, cloud computing and cyber-physical systems. The conference focuses on both theoretical and systems contributions in the security and privacy arena, mobile software platforms, usable security and privacy, the increasingly diverse range of mobile or wireless applications, including embedded devices, the Internet of Things (IoT) and Cyber-Physical systems.

Submission Instructions for Posters Session

IMPORTANT DATES:

1. Student poster proposal submission: July 10, 2015
2. Notification to poster presenters: July 30, 2015
3. Camera-ready version: September 10, 2015*

* poster files must be uploaded to the conference platform: www.nyit.edu/cybersecurity/posters by Sept. 10.

Posters may be no larger than 4 ft. tall x 3.75 ft. wide.

Undergraduate, M.S., and Ph.D. students are eligible for this session. Eligible posters include: 1) research in progress; 2) a proposed research project and/or study design; 3) results from under-graduate research projects; or 4) student research team projects (these may include a class or group research project).

Poster’s authors should submit a 1-page abstract by July 10, 2015 that provides sufficient technical detail so that the evaluation committee can assess the research and/or technical merit of the work. The poster abstracts do not have to present completed work, but at the same time should provide enough concrete evidence to support the potential and validity of the proposed ideas.

The Student Research-in-Progress Poster (SRIP) session will be held during the afternoon of Thursday, September 24th, 2015. While the audience will be able to review the posters throughout the day, posters will be evaluated in the afternoon, and recognized during the Student / Professional Mixer from 5:00 – 6:00 pm. Best Posters will receive an award. This is an excellent opportunity to receive feedback and suggestions on your research from both professionals and peers.

Abstracts of accepted posters may be distributed to conference participants. Please submit your poster 1-page proposal via email to MPanero@nyit.edu with copies to Ziqian.Dong@nyit.edu
