Requirements for admission to graduate study at NYIT vary with the discipline the applicant chooses. All applicants are required to hold a baccalaureate degree or its equivalent from an accredited college or university and must submit the completed application form.

Readmission of Former Students — Students who have been away from NYIT for one semester, not including summer, and have not attended another institution do not need to apply for readmission. Students who have been away for one semester and have attended another institution or students who have been away from NYIT for more than one semester must visit the Office of Admissions to file an application for readmission along with the necessary supporting documentation and any applicable processing fees. Students are required to present all transcripts for evaluation at the time of readmission in order to receive transfer credit for work completed at another institution and ensure proper academic advisement, scholarship, and financial aid eligibility.

Nonmatriculated (Nondegree) Applicants — Regardless of whether you are enrolled at other institutions, you are welcome to enroll in the spring, summer, or fall semester on a nondegree basis and take up to nine credits. You must first file an application for nonmatriculated status, which can be obtained through the Office of Admissions.
