Physician Assistant Required for
Leading Cardiac Diagnostic Practice

About the practice

Gramercy Cardiac Diagnostic Services is New York’s premier dedicated cardiac diagnostic practice. Committed to leadership in the appropriate use of sophisticated technology for patient care, the practice operates four dedicated cardiac PET machines and is developing partnerships with national institutions to widen understanding of the benefits of this important established technology. In its 5 locations across four New York City boroughs the practice provides the full range of non-invasive cardiac diagnostic services – dedicated cardiac PET, SPECT, exercise treadmill stress tests, echocardiograms, vascular studies, T-wave alternans, tilt table, and Holter monitors. Gramercy Cardiac is an ICANL, ICAEL and ACR accredited facility.

Overview of the role

Reporting to the President/Chief Medical Officer, the Physician Assistant will be responsible for managing all aspects of patient preparation and supervision for PET, SPECT and other cardiac testing. He/she will supervise Medical Assistants in preparing patients, taking histories and monitoring patients through the tests. He/she will be expected to perform, as well as assist physicians and other practitioners in, the supervision of stress testing, completion of relevant paperwork, and patient follow up.

Title: Physician Assistant

Reports to: President/Chief Medical Officer

Purpose: To support and supervise cardiac PET and SPECT testing in the practice’s five New York City locations.
