

Master of Science in Cybersecurity (M.S.-CYBERSECURITY)

The **Master of Science in Cybersecurity (M.S.-Cybersecurity)** program at the New York Institute of Technology - Vancouver (NYIT) is internationally acclaimed for its multi-faceted education and student success rate. Students will learn to critically evaluate various technical and architectural solutions in order to limit risk and mitigate the effects of hostile action, while studying algorithm concepts, risk management, and attack recovery. The program covers the design, implementation, and maintenance of software tools to support network security across multiple operating systems.

Highlights

- Students are able to enjoy brand new, state of the art facilities located at Broadway Tech Centre campus. The program is supported by a dedicated cybersecurity lab.
- The program offers an innovative, technology-oriented, and interdisciplinary curriculum taught by qualified and experienced faculty.
- M.S.- Cybersecurity is an applied degree and can be completed in less than two (2) years.
- Students have the opportunity to transfer between New York and Vancouver campuses.
- Financial aid is available to Canadian Citizens and Permanent Residents of Canada.
- Career planning services are available on campus to all students.
- International students are eligible to work off campus (max. 20 hrs/week) during their studies and can qualify for post-graduation work permits (up to three (3) years) after graduation.

The NYIT-Vancouver M.S.-Cybersecurity Program

M.S.- Cybersecurity echoes the non-thesis curriculum option already offered in New York. The program is ideally suited for students with a computer science, electrical engineering, or related backgrounds who intend to play a leading role in the implementation and management of computer and network security systems.

Students who graduate from the M.S.- Cybersecurity program can expect great demand from the following occupations:

- Cybersecurity Specialists
- Cybersecurity Engineers
- Network Administrators
- Cyber Threat Analysts
- Information Systems Managers
- Security Analysts

Intakes & Duration

There are three (3) terms in every academic year; Fall (15 wks, Sep.–Dec.), Spring (15 wks, Jan.–Apr.), and Summer (8 wks, May–Jul.). M.S.-Cybersecurity is a two (2) year program, but strong students can complete it in less than two years.
