NEW YORK INSTITUTE OF TECHNOLOGY
Biomedical Data Science Center

3rd INVITED SEMINAR SERIES

Aspects of Machine Learning in Biomedical Data Science

Dr. Mark Gerstein

Williams Professor of Biomedical Informatics at Yale University

Dr. Gerstein is one of the most influential figures in biomedical data science and computational genomics, with major contributions to large-scale genomics, human genome annotation, disease genomics, biological networks, genomic privacy, AI-enabled digital phenotyping, and multi-omic data analysis. His work has appeared in leading journals including Science, Nature, and *Cell*, and his visit represents an exciting opportunity for BDSC members, as well as NYIT students, faculty, and university leadership.

Yale YALE UNIVERSITY

Friday, October 30, 2026 | **12:00 PM – 2:00 PM**

The 11th Floor Auditorium
16 W 61st Street, New York, NY

SCHEDULE

- **12:00 – 12:30 PM** Meeting with faculty
- **12:30 – 1:00 PM** Pizza and refreshments
- **1:00 – 2:00 PM** Seminar talk by Dr. Gerstein

JOIN VIA ZOOM

We are grateful to the College of Arts and Sciences for supporting this seminar, and we hope the event will bring together faculty, students, and leadership from across CAS, COECS, and COM.
